Ailyn Becerra

Email: pbecerracorvera@ucsd.edu Github: https://github.com/ailynb006
LinkedIn: https://www.linkedin.com/in/ailyn-becerra-2b09573a4/

TECHNICAL SKILLS & LANGUAGES

Programming Languages: Java, Python, C, C++, JavaScript, HTML, CSS, ARM Assembly
Frameworks & Libraries: React, pandas, seaborn, NumPy, Matplotlib, Node.js
Developer Tools: Git, VS Code, Playwright (E2E), ESLint, GDB, Valgrind, Make
Design Tools: Figma, Adobe Creative Suite, UI/UX Wireframing
Bilingual: Native fluency in English and Spanish

EDUCATION

University of California, San Diego (UCSD) | Aug 2024 – June 2028 (Expected)
Bachelor of Science, Computer Science | Junior
Relevant Coursework: Data Structures & Algorithms, Software Engineering, Discrete Math, Computer Systems
Awards: Biliteracy Seal (English/Spanish), High School Honors (4.5 GPA)
Additional Training: Bootcamp in Entrepreneurship (UCSD Faculty), Classical Vocal Performance

TECHNICAL PROJECTS

AI-Integrated Issue Tracker (Allegro) | UI/UX & Frontend | March 2026 – June 2026

- Engineered a responsive React-based dashboard for an AI-driven issue tracker, managing a complex repo and ensuring 95%+ UI stability through Playwright E2E testing
- Designed a human-centered interface in Figma to facilitate the auditing of AI-generated bug reports, balancing automated efficiency with manual oversight
- Implemented strict CI/CD linting protocols (Stylelint, ESLint) and integrated RESTful APIs to ensure real-time data synchronization across a CLI tool and web dashboard

UCSD WIC/ACM Computer Vision Projects | Lead Developer | Jan 2026 – March 2026

- Developed a facial expression recognition tool using OpenCV and Python, mapping real-time user emotions to dynamic media triggers and sound effects
- Built a facial geometry analysis program to calculate facial proportions, utilizing landmark detection to provide automated personalized eyeglass shape recommendations

COGS 108: Animal Shelter Data Analysis | Data Scientist | Jan 2026 – March 2026

- Analyzed a large-scale dataset of animal shelter records using Python (pandas, NumPy) to identify key demographic predictors for adoption speed and length of stay
- Visualized complex trends via Matplotlib and Seaborn, performing Exploratory Data Analysis (EDA) and data cleaning to provide actionable insights into shelter management

WORK EXPERIENCE

UCSD Human Resources | HR Operations Intern | May 2026 – Present

- **Systems Management:** Oversee a high-volume ticketing system, routing technical inquiries and resolving administrative bottlenecks for the university community
- **Data Privacy:** Manage sensitive employee records and PII (Personally Identifiable Information) with strict adherence to confidentiality protocols and professional judgment
- **Communication:** Coordinate multi-channel operations (Teams, Outlook) to optimize department workflow and response times

San Diego Symphony | Project Ambassador | June 2023 – July 2023

- Directed logistics and scheduling for group concert productions, serving as the primary liaison between executive staff, musicians, and front-of-house operations.

COCURRICULAR / VOLUNTEER EXPERIENCE

- **Sixth College Ambassador:** Plan large-scale campus events and lead resource outreach for students
- **Corazón de Vida Foundation:** Produced an Opera concert to fund orphanages in Baja California
- **Ministry of Jerusalem Food Bank:** Facilitated weekly meal distribution for 200+ families
